MADE WITH AMERICAN STANDARDS

**MEDICAL EXAM**  
FDA 510K - CHEMO RATED

**FOOD GRADE**  
HIGH QUALITY

**INDUSTRIAL**  
LIGHT & HEAVY

# Company Letter

At Jebtal, our driving force is to be a leading supply chain, distribution, and global logistics entity using futuristic technology. Our leadership team has 80 years of combined manufacturing, logistics, and technology experience. Our technology experience is what inspired our founder to bring together two worlds (manufacturing and technology) to create cutting edge processes that will allow us to bring innovative manufacturing and automation to the USA.

## **Bringing Manufacturing back to USA.**

Our country needs to bring a large percentage of its manufacturing back to North America. To compete with Eastern Markets, we must employ automation technology that allows us to have competitive pricing. To achieve this goal,

Jebtal has teamed up with trusted offshore teams with over 30 years of experience in nitrile glove manufacturing. They are helping us set up proper production lines prefabricated here in the United States. They are also working with our offshore team's production lines in Thailand, perfecting our glove design and quality to give our customers confidence in our products.

## **We want your Business!**

Our main objective is to establish long-term relationships with organizations and corporations like yourself. We will do this by being proficient in quality, efficient in delivery, and by providing excellent customer service. Your decision to do business with Jebtal allows us to provide excellent performance and facilitates the successful completion of our

new plant construction, which will bring over **900** jobs to the Great Lakes Region of the United States.

Our goal is to become renowned for our innovation and cutting-edge processes for manufacturing to wholesale and retail distributors, and for private labeling service to contribute the success of our customers. Secure your future today, by doing business with Jebtal, and enjoy the confidence of knowing that your production is done on American soil, which will allow you to be ready under any emergency circumstance.

## **Thank you!**

We would like to Thank all our professional front line workers who are protecting people around the globe..

James Buford Jr.  
President

# The Company

JEBTAL Imports, LLC (JEBTAL) is a Michigan-based certified minority supplier, specializing in domestic and international trade of goods. JEBTAL works directly with manufacturers, across the globe, obtaining products to sell as private labels, or to market to end users. We have an extensive worldwide distribution network. JEBTAL also has a legal entity in India: JEBTAL Imports India Private LTD (JEBTAL India). This gives JEBTAL a significant advantage in the global supply chain industry. Currently, JEBTAL is a master distribution license holder for Jebtal Nitrile Glove Manufacturing.

## United States Manufacturing

*“Our plans are to break ground in 2024 starting construction on a new plant in Saginaw*

### Key Highlights

- 9 production lines
- Estimated production of 2.5 billion gloves a year
- Production lines prefabricated in

## Offshore Manufacturing

Currently, we have secured nitrile glove production lines in Thailand to produce our private label brands of gloves (Exam Gloves, Food Grade, and Industrial) until USA construction is completed. Our Thailand factory has been the leader in both Natural Rubber Latex and Nitrile Latex Examination Gloves manufactured, since 1988. Our production facility is GMP-compliant and currently consists of 8 modern and highly efficient production lines, capable of producing in excess of 100 million pieces of examination gloves per month, or approximately 1.2 billion pieces per year with consistent product quality output.

# Medical Nitrile Examination

*Gloves made to protect with perfection. Chemo rated by the FDA with quality and durability*

*We believe in delivering Premium Quality gloves to our partners and in surpassing their expectations in the delivery of our Manufacturing services.*

- **Excellent mechanical strength provides a high level of hand protection against bacteria and fungi.**
